CAREER SUMMARY

Enthusiastic BE Computer Engineering student with strong interest in AI, full-stack web development, and real-world problem solving. Experienced in building innovative platforms including AI-based interview systems and smart educational tools. Active hackathon participant with strong teamwork and rapid prototyping skills.

EDUCATION

Bachelor of Engineering (Computer Engineering), 2nd Year

Vidyavardhini College of Engineering and Technology, Vasai

TECHNICAL SKILLS

Programming Languages: Java, Python, JavaScript

Web Development: HTML, CSS, React.js, Node.js

Database & Backend: Firebase

Tools & Platforms: Git, GitHub

PROJECTS

Mock AI Interviewer

- Developed an AI-based mock interview platform for students
- Designed to simulate real interview environments and improve confidence
- Focused on question generation, response handling, and performance feedback

Air Canvas

- Built a computer vision-based drawing application
- Enabled users to draw on screen using hand gestures
- Implemented real-time motion tracking logic

Study Kit – Student Study Platform

- Developed a study-oriented platform to help students manage learning resources
 - Designed features for organized content access and academic productivity
-

HACKATHONS & TECH EVENTS

- Odoo Hackathon – Participant
 - Agent X Hackathon – Participant
 - Techfest, IIT Bombay – Technical Event Participant
-

SOFT SKILLS

- Problem Solving
 - Team Collaboration
 - Quick Learning
 - Communication
 - Adaptability
-
